Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Claims 13-18,29-45 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected Group I, II and III, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 4/25/08 but did not argue why the restriction was improper. Applicant stated, "Although Applicants do not necessarily agree with the Examiner's apparent characterizations concerning the claims, Applicants provisionally elect, with traverse, to prosecute Group IV (i.e., claims 46-48) in this Application."

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 46-48 are rejected under 35 U.S.C. 102(b) as being anticipated by Suzuki et al. (USPN 4,981,801).

Suzuki discloses a system comprising a thermal cycling device (fig. 7, ref. 71-75) having a sample block with a plurality of openings for receiving a sample well tray (88); a sample well tray handling apparatus (fig. 7-10) configured to take a sample well tray

from a first location, place the sample well tray into the thermal cycling device at a second location and then later remove the sample well tray from the thermal cycling device and return the sample well tray to the first location (col. 11, lines 18-col. 12, lines 67); the sample well tray handling apparatus comprising a sample well tray holder (90), a rotational actuator (fig. 8, ref. 93 and fig. 9) configured to rotate the sample well tray holder, and a an extension arm (90) extending from the rotational actuator and being connected (89) to the sample well tray holder. Regarding claim 47, the Examiner states that when the sample well tray is taken from the thermal cycling device the sample well tray holder (90) urges the sample well tray in a direction away from the sample block of the thermal cycling device because it picks up and moves to another station. Regarding claim 48, a robot with a robotic arm configured to transport the sample well tray to the first location is disclosed in fig. 2).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SAM P. SIEFKE whose telephone number is (571)272-1262. The examiner can normally be reached on M-F 7:00am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill A. Warden can be reached on 571-272-1700. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
